Railtec Construction LLC

P.O. Box 314
Sykesville, MD 21784

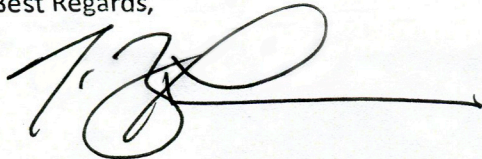

This letter is in regards to the project that Railtec completed at our home in Davidsonville, MD this past Summer.

I really appreciate the excellent work and attention to detail that you and your team provided when you replaced our stair treads, risers, railings, spindles and newel posts. You made a couple of trips out to our home to be sure that my wife and I were happy with the products that we selected. I also appreciate your flexibility in allowing us to switch out the oak newel posts with white ones at the last minute.

I handle Business Development for a large construction company and I know how much we appreciate it when a customer takes the time to thank us. Therefore I wanted to take the time to thank you for your professionalism and to acknowledge you and your company for a job well done. Good quality residential contractors are not easy to come by these days!

I am sure our paths will cross again someday and I will be sure to recommend Railtec to any of our family and friends that are looking for a good contractor with expertise and experience in stair and railing work.

Best Regards,

Toby Leach
